Ref: International Sport Youth Day

Dear friends,

I am pleased to inform you that PI has signed the manifesto with which our member Francesco Panigadi launched the project to have the UN, through UNESCO, proclaim an International Youth Sport Day.

This project is already taking off and has received the support of important organisations (CONI, Sport e Salute, USSI, some regions, CNIFP and others): we are all involved in this important and interesting initiative.

What can and should Panathlon International do?

It's easy.

All you have to do is share the attached MANIFESTO, sign it as a supporter and return it to our Secretariat (info@panathlon.net).

We hope that there will be a significant participation, especially from young people who will be the direct stakeholders and beneficiaries of the project.

The more of us there are, the more strength we'll give to the success of the project.

Thank you for your attention and best regards,

Giorgio Chinellato
International President
